

PILATES

Macro Oscillator

RRP £179

Wholesale £100

Pilates is a macro-oscillator packing 24 synthesis models into a single streamlined module. Analogue waveforms, FM, wavetable, speech synthesis, physical modelling — all in one place, all under CV control. From melodic leads to percussion, noise to physical modelling, a complete sound source in 12HP.

FEATURES

- 24 synthesis models: analogue, FM, wavetable, physical modelling and more
- Simultaneous main and auxiliary audio outputs
- V/Oct, FM, Timbre, Morph and Trigger inputs
- Built-in low-pass gate for expressive playability
- FR4 fibreglass panel

SPECIFICATIONS

Format	Eurorack
Width	12HP
Depth	25mm
+12V Current	50mA
-12V Current	5mA

STOCKING & AVAILABILITY

Factory assembled PCB & SMT, THT hand finished and calibrated in Edinburgh, Scotland. Brand New. Ships tracked and insured within 1 business day. Enquiries: eastcoastmodular.co.uk
