

BEEHIVE

Macro Oscillator

RRP £169

Wholesale £110

Beehive is a compact macro-oscillator packing 24 synthesis models into just 8HP. Based on the beloved Plaits architecture, it covers everything from classic analogue-style waveforms to FM, wavetable, speech synthesis, and noise — all in a slim, space-saving format. Your one-stop oscillator for any patch: melodic leads, percussive hits, drones, noise, and everything in between.

FEATURES

- 24 synthesis models in just 8HP
- Dedicated V/Oct, FM, Timbre, Morph, and Trigger inputs
- Simultaneous main and auxiliary audio outputs
- Low CPU / high audio quality design
- Based on open-source Mutable Instruments Plaits firmware
- FR4 fibreglass panel

SPECIFICATIONS

Format	Eurorack
Width	8HP
Depth	25mm
+12V Current	50mA
-12V Current	5mA
