

VALES

Quad VCA & Mixer

RRP £139

Wholesale £80

Vales is a quad VCA with a clean, versatile design. Four independent channels, each with its own gain and response curve control — linear or exponential. Stack them, sum them, use them for audio or CV. An essential utility that earns its HP every time. Amplitude control, CV shaping, mixing, ducking — the building block of almost every patch.

FEATURES

- 4 independent VCA channels
- Linear or exponential response curve per channel
- Normalled inputs for easy stacking and summing
- Suitable for audio and CV signals
- Clean, low-noise signal path
- FR4 fibreglass panel

SPECIFICATIONS

Format	Eurorack
Width	10HP
Depth	25mm
+12V Current	50mA
-12V Current	50mA

STOCKING & AVAILABILITY

Factory assembled PCB & SMT, THT hand finished and calibrated in Edinburgh, Scotland. Brand New. Ships tracked and insured within 1 business day. Enquiries: eastcoastmodular.co.uk
